BIO

I'm Xuanyu Peng, a fourth-year Ph.D. student in computer science at the University of California, San Diego, advised by [Prof. Loris D'Antoni](#). My research aims to improve the reliability of software systems through program language techniques, with a current focus on automatically constructing correct, optimizing, and customizable (tensor) compilers. I obtained my B.S. in Computer Science from Turing Class, Peking University, where I worked with [Prof. Yingfei Xiong](#) and [Prof. Di Wang](#).

EDUCATION

University of California, San Diego

La Jolla, CA, USA

Ph.D. in Computer Science

Sep 2023 - Present

Began at University of Wisconsin–Madison (Sep 2023 - Aug 2024); transferred to UCSD in Sep 2024

- Synthesizing Static Analysis: Developed **NiceToMeetYou**, a program synthesis framework for automating abstract interpretation in dataflow analyses heavily used by production compilers.
- Specification Inference: Built **Loud**, a specification inference framework that extracts sound and precise properties from programs.

Peking University

Beijing, China

Bachelor of Science in Computer Science & Technology, Turing Class

Sep 2019 - June 2023

GPA: **3.80**/4.0 (rank: **14th**/200)

WORK EXPERIENCE

AWS Annapurna ML

Jun 2026 – Sep 2026

Applied Scientist Intern, mentored by Chungha Sung and Daniel Kroening

- Automatic NKI Kernel Optimization: Developed a synthesis-based approach to automatically generate and fuse NKI kernels, improving vLLM model serving performance on AWS Trainium.

AWS Cloud Operations

Jun 2025 – Sep 2025

Applied Scientist Intern, mentored by Victor Nicolet and Joey Dodds

- Data Transformation Synthesis: Proposed a schema-guided approach for synthesizing JSON transformations, applied to automatic generation of cloud scripts and cloud configuration updates.

SCHOLARSHIPS AND AWARDS

John Hopcroft's Scholarship at Peking University

2022

Ubiquant Scholarship

2021

Peking University Merit Student

2020

Gold Award (7th place), The 44th ACM-ICPC Asia Regionals Xuzhou Site

2019

Silver Award, The 5th CCPC Xiamen Site

2019
